UNIVERSAL SERIES
Available in Bronze, Carbon Steel, Alloy C22.
DN 08 to DN 50.
Connections: Male/Female Gas or NPT; Flange PN or Class; Clamp or S.M.S.
Options: Stellited seat; Elastomer and plastomer soft seat; Balanced type; Opening detection...

LOW PRESSURE SERIES
Available in Stainless Steel, Alloy C22, Uranus® B6...
DN 20 to DN 150.
Connections: Male/Female Gas or NPT; Flange PN or Class; Clamp or S.M.S.
Options: Elastomer and plastomer soft seat

API SERIES
Available in Carbon Steel, Stainless Steel.
DN 25 to DN 150.
Connections: PN16 / PN40; Class 150 / 300 / 300LT / 600.
Options: Stellited seat; Different flanges facing; Opening detection; Balanced type...

For 35 years, our company has developed its expertise in safety relief valves within our manufacturer +:
- Wide range of safety relief valves, from vacuum breaker to high pressure valves including low pressure through our subsidiary Rampini;
- Fast delivery time ensured by our large stock for an on-demand mounting service;
- The ability to adapt our products to your market’s needs;
- Flexible and fully integrated working units, from design to manufacturing, in France and Italy, for a better flexibility;
- ISO 14001 certified, meeting all environmental requirements.

Pressure relief valve, vacuum breaker valve, breather valve and emergency vent for atmospheric storage tanks.

Available in Carbon Steel, Stainless Steel, aluminium and on demand in Hastelloy® or Duplex.

DN 50 to DN 600.

Connections: Flange PN10 / PN16; Flange Class 150.

Options: Dead weight load or spring load
Elastomer or plastomer diaphragm
HALAR® coating with PTFE bellows...

SAMPLING SERIES

Available in Stainless Steel. Vertical or horizontal mounting due to our innovative concept of rotating heads.

DN 20 to DN 200 (defined sampling volume of 25/50 et 100ml).

Connections: Flange PN16 / PN40 / Class 150 / Class 300; Flange Class 150 / 300.

Compatibility and perfect chemical resistance with components in PTFE, PEEK, FKM, FFKM or PFA coating depending on the application.

LARGE SERIES

Available in Cast Iron, Carbon Steel, Stainless Steel. Full nozzle or semi nozzle.

DN 20 to DN 150.

Connections: Flange PN16 / PN40; Flange Class 150 / Class 300.

Options: Stellited seat
Elastomer soft seat
Balanced type
